About the Fund

The Fund is a closed end fund seeking total return. The Fund may invest in equity and fixed income securities of both new and seasoned U.S. and foreign issuers, including securities convertible into common stock and debt securities, closed end funds, and mutual funds. The Fund uses a flexible strategy in the selection of securities and is not limited by the issuer’s location, industry, or market capitalization. The Fund may employ aggressive and speculative investment techniques, such as selling securities short, employing futures and options, derivatives, and borrowing money for investment purposes, an approach known as “leverage.” A potential benefit of its closed end structure, the Fund may invest without limit in illiquid investments such as private placements and private companies. The Fund may also invest defensively in high grade money market instruments.
